Education

University of Iowa, Iowa City, Iowa

Bachelor of Liberal Arts & Science; Major: Environmental Science, Minor:
Sustainability, Certificate: Geographic Information Systems

Professional Experience

Lab for Observing and Quantifying Aquatic and Terrestrial Ecosystems, Iowa City, Iowa
January 2026- present

Academic Research Assistant

- Evaluated 25 years of Cooperative Lakes Area Monitoring Project of the Iowa Great Lakes to determine patterns across time.
- Developed maps related to demographic, agricultural, and other various variables contributing to water quality data in these locations.
- Presented and proposed ideas alongside a team, detailing findings and potential solutions that could be applied moving forward.

Urban Wildlife Network, Iowa City, Iowa

November 2025- present

Academic Research Assistant

- Tagged photos using the UWIN database.
- Worked closely with other undergraduate and graduate researchers in deer monitor focus groups.
- Communicated effectively with other individuals to evaluate and present research.

UIowa Geologic Hydrogen Research Group, Iowa City, Iowa

October 2025- present

Academic Research Assistant

- Assist in LiDAR scans and data collection.
- Interpreted well-log data and entered it into Excel sheets.
- Work collaboratively with other researchers on projects.
- Attend bi-weekly meetings to present research findings.

Green Program Renewable Energy Innovation & Sustainability, Reykjavik, Iceland

Jan. 2026

Student

- Became familiar with the basic geophysical forces that have shaped Iceland's current economic, energy potential, and societal standards.
- Analyzed parallels between Iceland's energy sector and development.
- Gained knowledge of environmental policy as it relates to Iceland's reliance on the renewable energy industry.
- Had conversations with innovators from Iceland's Transportation Authority who is introducing biofuels.
- Explored real-world business solutions for renewable energy innovations.

Iowa Community Integrated Geography Organization, Iowa City, Iowa

Aug. 2025-Oct. 2025

Team Member

- Collaborated with researchers and organizations to put together a statewide interactive map that will pinpoint public parks and recreational spaces that are accessible to people with disabilities.
- Utilized software and platforms, including Esri, ArcGIS Pro, and Experience Builder, to create a statewide interactive map.
- Analyzed previous ArcGIS maps and communicated with past researchers on the project to further their work.

Iowa Wildlife Federation, Des Moines, Iowa

May 2025- August 2025

Social Media Volunteer

- Photographed significant environmental factors to bring awareness to the organization.
- Recorded footage of environmental factors for the advocacy of wildlife.
- Worked collaboratively with team members to produce beneficial and educational videos/photos.
- Encouraged public engagement through outdoor activities.

Dendrochronology Research, Iowa City, Iowa

March 2024- August 2024

Academic Research Assistant

- Worked using OneDrive folders and tree-ring data to transfer for further research.
- Assisted in hands-on field work using tools such as an increment borer.
- Emailed and communicated with my peers and mentors regarding project collaboration.
- Analyzed maps created from ArcGIS Pro.

Iowa Wildlife Federation, Des Moines, Iowa

June 2023- August 2024

Tabling and Education Assistant

- Attended out-of-town events where we tabled our organization.
- Informed and educated individuals on the goals and purpose of our organization and how they can get involved.

- Fundraised and increased community involvement to allow for the continual growth and success of the organization.
